INFORMATION BROCHURE

Welcome to Sudha Rustagi College of Dental Sciences and Research, Faridabad

Thanks you for considering Sudha Rustagi College of Dental Sciences and Research. The decision to pursue dentistry is a significant decision. Kindly read the prospects and meet our faculty and students.

To be a premier institute imparting quality education in the field of dentistry globally.

The provide a conducive environment in producing competent, qualified and proficient professionals and entrepreneurs by providing world class facility, infrastructure and technology in oral health management.

Dharamvir Gupta
(Chairman)

Chairman's Desk

Sudha Rustagi College of Dental Sciences and Research aims at imparting quality education in the field of dental science. The past years have seen phenomenal growth and we owe it to the faculty members and students of the college who have made us proud. The college has earned a leading position across the country in its fraternity. The college produces university toppers each year to live up to the expectations of the academic community. Considering that the society requires contribution from an entity like us, we have been continuously providing free services to local population in order to create awareness about importance of dental health for which dental check-up camps are organized by the college on a regular basis to increase the awareness of society towards dental health. Our college also provides financial assistance to both needy and meritorious students. We are also focused on the promotion of science, fine arts, dharamshalas, welfare of differently abled person and public charitable trusts.

Secretary's Desk

Education is the only tool that uplifts the standard of society. Sudha Rustagi College of Dental Sciences and research has vision of becoming a source of knowledge “Our dream is to be considered as the best institution of dental science”. The college has best infrastructure, faculty, modern tools and methodologies for the same.

We also have plan to make our base wider from dental science of medical, paramedical, nursing and allied fields, which will help students in availing medical education & the patients can avail health service at affordable cost.

Deepak Gupta
(Secretary)

Santosh Gupta
(Treasurer)

Treasurer's Desk

“Education open up the mind, expands it and allows you to improve your life in so many ways”. Education is for improving the lives of others and for leaving your community. Sudha Rustagi College of Dental Science & Research aim is to provide the best educations ever availed for the students of dental science. We believes that Both the institute and its student come in concert for fulfilling the mutual objectives ,thus excellent features have been added with in the campus of the college.

Principal Desk

Sudha Rustagi College of Dental Sciences and Research, welcome the students who want to pursue their career in the field of dental sciences. Institution strives to provide all the facilities like infrastructure, teaching, clinical training, research, sport and cultural activities. I assure that students who are trained in our college will be provided with quality education to acquire adequate knowledge & skills to carry out all the procedure appropriately and to practice dentistry to its best. In next five years, newcomers will experience toughest challenges in pursing their career but with guidance of experts, they will surely achieve greatest position in their personal and professional life.

Dr. C M Marya

Principal and Dean Academics

SUDHA RUSTAGI COLLEGE DENTAL SCIENCES AND RESEARCH

Sudha Rustagi College of Dental Sciences and Research was established in year 2002 under the aegis of Lala Bhagwan Dass Educational Trust (Regd.) a charitable trust registered under the Societies Registration Act, 1860 by Sh. Dharamvir Gupta, its founder president. A known educationist, has vast and rich experience in managing colleges like engineering, medical, dental, management and other allied educational institutions.

He is also the founder chairman of Lala Nemichand Educational Trust (Regd.) and a trustee of Shanti Devi Educational Trust. The trusts have a deep commitment to education which is the key to social upliftment and empowerment. Our chairman also runs N.C. Medical College & N.C. College of Engineering, Panipat, which has earned reputation as of the best Medical & Engineering College in the country. Both the colleges of the trust has world-class infrastructure and located on a 56 acres plot at Israna near Panipat.

Sudha Rustagi College of Dental Sciences and Research has been constructed on more than 10 acres of land. Located in a pollution-free, serene, stimulating and natural environment away from the hustle and bustle of the city, just 10kms away from South Delhi in New Faridabad, a part of National Capital Region. The institution is playing a vital role in providing excellent education in the field of dentistry. Along with the academics, the institute lays equal emphasis on imbibing in its students moral and ethical values. The graduates and post graduates from this college have created a niche for themselves in getting placements in armed forces, paramilitary services, dental colleges, reputed corporate and government hospitals etc. Institution has successfully completed 18 years of service to humanity and society by imparting affordable quality education.

Asia's Most trusted Dental College Award

Sudha Rustagi College of Dental Sciences and Research, Faridabad has been awarded as Asia's most trusted Dental College, the ceremony held at Bangkok. (As per Consumer Survey Report by Media Research Group MTG) The award was received by Mr. Deepak Gupta, Secretary of trust and Dr. Garima Gupta, Medical Director, on behalf of institution.

VIIth All India Excellence Award

College has been honoured with VIIth All India Excellence Award by the Indian Achievers Podium. It has been adjudged as the best Dental College in Haryana (under private college category.)

Why study at Sudha Rustagi College of Dental Sciences and Research, Faridabad

Located in a pollution-free, serene, stimulating and natural environment-away from the hustle and bustle of the city just to 10kms away from South Delhi in New Faridabad, a part of National Capital Region, offers an ideal atmosphere for learning, research and scholastic pursuits. We also serve a diverse local community where you will develop your clinical skills and knowledge. Moreover, Sudha Rustagi College of Dental Sciences and Research offers you many exciting opportunities to develop and understanding of health and the treatment of disease in a global and international context.

Campus

The college has been constructed on more than 10 acres of land at Kheri Road, on the outer fringe of city of New Faridabad, near the southern border of Delhi. It is excellently connected with Delhi. This has significantly increased the number of patients (Daily Average Dental OPD of 550-600 patients) for clinical training of students. The college offers extensive campus-based facilities that encourages an active social life.

State-of-the-Art clinical facilities

We have modern state-of-the-art building. The institution contains a clinical skills laboratory, which closely simulates the real clinical experience and an invaluable learning facility, helping new students prepare themselves well for patient care work in clinics. The college has locational advantage of being surrounded by about 85 villages and a large number of real estate groups.

Student Support

We have a highly developed network of academic support. At every stage of their studies our dental students receive support from staff who are experienced in helping and advising students.

Mentorship

Mentorship is for the benefit of the students and provides continuous monitoring and evaluation of student's progress. The focus of the faculty is facilitating the student's learning process. Each student is placed under a mentor throughout his/her stay during the course, which plays a role of a guide, an elder associate and a guardian to provide students a personal touch. The highly qualified faculty is the greatest asset who bring their experience into the classroom teaching.

Friendly Environment

A friendly and welcoming environment of the college attracts students from a wide variety of backgrounds & locations creating an environment where friendships & learning blossom.

1. What can I study at Sudha Rustagi College of Dental Sciences and Research, Faridabad?

Undergraduate : **Bachelor of Dental Surgery (BDS)**

Duration : 5 years Course (100 Seats per year)

- ☞ Recognized by Ministry of Health and Family Welfare, Government of India and Dental Council of India.
- ☞ Affiliated to Pt. B.D. Sharma University of Health Sciences, Rohtak.
- ☞ The College aims to provide a contemporary clinical education and training, using a wide variety of high quality "material & equipment's with latest technology" to ensure that graduates meet and exceed the registration requirements of the dental council. In addition to surpassing the minimum requirements of our regulators our programs aim to produce a graduate that :

Key benefits of our innovative curriculum for BDS (Undergraduate Students)

Early clinical experience

An early introduction to clinical dentistry provides a context for your learning and makes studying more enjoyable relevant. In two years, you will be able to apply your growing knowledge in a clinical context. You will have the opportunity of studying at a variety of community and dental clinics which will help you appreciate the social factors that influence health and healthcare. You will develop your clinical skill through a variety of clinical procedures at Sudha Rustagi College of Dental Sciences and Research, Faridabad. Community dental camps also complement the clinical skills teaching that gives you a useful practical experience of a diverse range of healthcare settings.

Excellent patient care

Throughout our programmes we emphasize the development of communication skills that are essential to building good relationship between dentist with their patients. Our curriculum aim is also enhance understanding of ethical and moral dilemmas related to medical and dental practice. You will start to experience the clinical environment and become involved in the care of your own patients during your third year. You will take part in examination, diagnosis, assessment, prevention and management of disease.

Key benefits for our MDS (postgraduate students)

Teamwork

We encourage a team approach, where students & faculty work together on study projects as well as learning clinical skills.

Seminars

- ☞ Lectures and symposia : Symposium aims to integrate learning by focusing on all aspects of a particular topic.
- ☞ Communication skills : You will have practical training in interviewing techniques and special sessions devoted to communication between dentists and their patients.
- ☞ Clinical Skills : In the early stages of the course this involves working with general practitioners and community tutors.
- ☞ E-learning : You will have access to a large amount of teaching material via 'Smart board' and Intranet-based facilities which enables you to revisit lectures and other teaching material at any time.

Teaching And Learning Priorities :

- ☞ Enhancing the quality of all our teaching programmes.
- ☞ Attracting the best students to the college.
- ☞ Optimizing the student experience.
- ☞ Enhancing the efficiency and flexibility of our programmes.
- ☞ The prime aim of the college to give the students proper patient exposure along with guidance and knowledge to nurture their talent and encourage the personal performance.

Teaching facilities and learning resources

Students will be able make use of excellent facilities and learning resources available in the College Campus during their course.

Degree Programme in Dentistry :

Dental curriculum

The five-year course leading to Bachelor of Dental Surgery degree provides a globally aware, student-focused, integrated, multidisciplinary approach to acquisition and use of knowledge, which :

- ☞ Promotes oral health education and provides patient-centered, evidence-based care.
- ☞ Develops knowledge, skills values, attributes and behaviours of a dental professional.
- ☞ Recognises the need for lifelong learning and professional development.
- ☞ Promotes the awareness of knowledge creation.
- ☞ Great emphasis is placed on the acquisition of clinical skills and professional attributes by working closely with your teachers, peers and other members of the dental team. You will be provided patient care in a range of settings, exposing you to a diverse population group and a variety of opportunities professional development.

MoU with Foreign Universities

- ☞ The Dental College has signed an MoU with university of Sains, Malaysia for research exchange.
- ☞ Programme for Diploma in Laser therapy in dentistry with AACHEN University, Germany.

Clinical and communication skills

We emphasize the development of clinical and communication skills in oral healthcare, history-taking and patient examination. You will practice communication skills in small groups using role-play with each other and patients. Clinical skills are taught in our clinical skills laboratories.

Ethics and Jurisprudence

Through case-oriented group discussions, you will gain an insight into the salient aspects of ethics and jurisprudence (law), which relate to working in dental practice. Topics discussed will include informed consent, truth telling, confidentiality, medical and dental experimentation and research, rights of children, rights of mentally ill people and those with a learning impairment and the moral and legal obligations of the dental practitioner.

Annual Assessments

Annual examinations using a range of assessment methods allow you to demonstrate the knowledge, skills and attitudes you have developed throughout the programme. These assessments will also contribute to your degree result.

Academic Results

Success of any institution is judged by the outcome and achievements of the graduates. The basic aim of providing quality education has been successfully achieved when one looks at university merit positions secured by students of this college till date. Students of our college have also been adjudged as the best meritorious outgoing student for eight consecutive years. Our students have proved themselves to be competitive and competent in all fields. The college maintains excellent academic record and produces the largest number of university toppers every year. They have brought laurels to the college by being amongst the ten top performers in the university.

Faculty

The institute has a widely experienced and diverse faculty drawn from academic, research and dental care industry. The institute provides top class resource support to faculty in terms of computing, research, library and training facilities. The focus of the faculty is to facilitate the student's in learning process. The curriculum teaching encompasses live and practical learning, constructive lab modules and live project work.

We have a unique blend of highly qualified, dedicated, experienced dental and medical faculty. Faculties have opportunity for continued academic growth and professional development. They are encouraged to take part actively in national/international conferences, workshop, conventions and research methodology programs. Many of our faculty members are also speakers of national repute and are working as general secretary, executive committee members in their respective speciality associations and also editors of the various speciality journals.

Department of Public Health Dentistry

Dr. C.M. Marya : (Principal and Dean Academics)

MDS, Phd. FICD. MFCD RCPS (Glasg.) Prof. And HOD is the Editor-in-chief of the Journal of oral health and community dentistry. He is also serving as a reviewer in the editorial board of many international and national journals. He has numerous publications in various national and international journals of repute. He has also authored the textbook of public health dentistry, practical manual of public health dentistry and co-authored the textbook of physiology for dental students.

Department is fully equipped with ultramodern dental chairs and all the sophisticated gadgets to provide comprehensive dental care and to create awareness about common dental problem among general population. Department has acquired two state of art, air conditioned and fully equipped mobile dental vans through which it is actively involved in various outreach programmes organized in rural and urban areas. The department also runs two satellite clinics for the benefit of the patients. The clinics are well equipped with all facilities to ensure quality care.

Post graduate programme in public health dentistry impart knowledge and skills to students so that they can provide comprehensive dental care to patients and fulfil the preventive, promotive and curative dental needs of the community. Post graduates and also being trained for conducting research work in the field of epidemiology of dental diseases and effectiveness of new preventive modalities in dentistry. The faculty shows excellence in developing highly competent dental professionals.

Department of Orthodontics & Dentofacial Orthopaedics

Dr. Gurkeerat Singh : (Vice Principal, Prof. And HOD) BDS, MDS(Ortho.), M.Orth., Diplomate, Indian Board of Orthodontics (IBO). is registered with the Royal College of surgeons, London and Royal College of physicians and surgeons Glasgow. He is a diploma of the Indian board of orthodontics. Dr. Singh has over fifty publications in various Indian and international journals to his credit. Most noteworthy is "The Textbook of Orthodontics", the first full-colored textbook on the subject by an Indian author and the "Mini Atlas of Orthodontics". He has presented numerous paper and has been a guest speaker at various

national & inter-national conferences and study conventions across the globe. He is a former Vice President and editor of the journal of the Indian Orthodontic Society (2010-14). He has also been an executive member of the Delhi dental council, Indian dental association and the dentistry sectional committee, Bureau of Indian Standards.

Orthodontics deals with correction of teeth and jaw mal-position in children and adults, thereby, improving esthetics along with function. Post graduate program prepares qualified dentists to manage the full range of dento-facial discrepancies using various orthodontic appliances including aligners and lingual orthodontic appliances. The postgraduate wing has a separate dry and wet lab, a cephalometric tracing room, photography room and a seminar room equipped with latest audiovisual aids. Students learn a variety of treatment modalities under supervision of experienced and outstanding faculty. Department has over three hundred running orthodontics cases and caters to a large OPD for regular new patient inflow. The department teaches them latest techniques in patient management, to prepare them for rewarding orthodontic career.

Department of Oral & Maxillofacial Surgery

Dr. Ashish Gupta : MDS, Prof. & HOD is a well renowned oral and maxillofacial surgeon with a number of publication and a very active member of Association of Oral and Maxillofacial Surgeons of India. Member of board of studies at Pt. B.D. Sharma University of Health and Sciences. A state-of-the-art department of oral and maxillofacial surgery has become a regional center of excellence in short span of time. A dedicated and competent team of maxillofacial surgeons are dealing with complicated cases like resections, orthognathic surgeries, graft, reconstruction and tumors on routine basis. Apart from this, hundreds of minor surgical cases are being performed by students and teachers. International standard operations theatres and 120 bedded multispecialty hospital act as a backup so as to accomplish most complex cases. Department's O.P.D. boasts of providing high quality treatment for various oral and maxillofacial problems under laid down protocol. Presently he is representative to Asian Association of Oral & Maxillofacial surgeons from AOMSI

Department of Prosthodontics & Crown & Bridge & Implantology

Dr. Salil Pawah : MDS, Prof. & HOD is graduate from Karnataka University and post graduate from RGUHS. He is a member of IPS from the last 13 years. He is also a lifetime member of IDA and he has carried out many courses on "Post & Core", "all Ceramics" and "Over dentures". He has presented papers at various national conferences, in which he has been awarded with best papers many times. Also has many publications in various speciality journals.

The department deals with replacement and maintenance of missing oral structures. The main aim of prosthodontics is to improve the dentally crippled patient with artificial substitutes to improve appearance and masticatory efficiency. In addition to routine denture and bridge prosthesis, the department is actively involved in highly advanced prosthetic work such as dental implants, full mouth rehabilitation, treating TMJ disorders, cast partial dentures, post & core restorations, all ceramic restorations, obturators and other maxillofacial prosthesis. This institute is the only institute in northern region to teach and Practice Basal Implants.

The PG students have brought laurel to the institute by winning best paper awards in All India Speciality Conference. Gradually the PG admission seats have grown two to five, with Dental council of India's approval. The students are encouraged to do research work under experienced guidance offaculty.

Department of Conservative Dentistry & Endodontics

Dr. Prashant Bhasin : MDS, Prof. & HOD

A post graduate from the Department of Conservative Dentistry and Endodontics of Rajiv Gandhi University SDM(Dharwad) Karnataka, 2007. Invited as a guest faculty by various institutions from USA, Canada, Germany, Dubai and Brazil , Sharjah, Mexico. Recognized as a well-known speaker at various National and International conferences and seminars, he has contributed many award winning articles on his field across multiple platforms. He also holds an international certification on Engine driven Endodontics by Essential Dental Seminars at HODEC, New Jersey. He Is first gold member from India for the excellence in endodontic association & first Honorary member of 3DCleaning group on Italy from India Chairman of international cooperation committee of GLOBAL SUMMIT USA, International Ambassador as an ENDODONTIST for American Academy of oral Surgery U.S.A. He is first microscopic dentist from India on the international listing of CARLZEISS Germany. He is the MEMBER of American Microscopic Enhanced Dentistry U.S.A Conservative Dentistry & Endodontics is the specialization in the field of dentistry which has laid foundation of saving the tooth both as Restorative dentistry & Endodontics . The procedures like diagnosis and treatment planning from tooth colored restoration to smile designing. The speciality works tremendously to save the tooth which are infected by Root canal procedure which focus at the microscopic level to make the procedure predictable and restore the tooth to function and aesthetics..

The department is equipped with ultra modern equipment like digital radiography, intraoral imaging, apex locators, endomotors, thermoplastic obturation system & latest innovation in field of Dentistry **SURGICAL OPERATING MICROSCOPE**. The department function like a family providing secure environment to students and quality treatment to our patients under stringent protocols of disinfection and sterilization under the specialized faculty supervision.

Department of Pedodontics & Preventive Dentistry

Dr. Bhavna Gupta Saraf : MDS, Prof & HOD, an alumnus of Gov. Dental College Rohtak and Post-graduation from SDM College of dental sciences Dharwad has been Post graduate teacher and Guide since 2010 with more than 15 years of teaching experience. She has been an Associate Editor of PubMed indexed journals, and a Member of Review board of various dentistry journals. She has around 34 publication in international and national journals with to her fame. She has been invited as a Guest Speaker in various conferences and has presented numerous papers to her credit.

Pediatric Dentistry is an age-defined speciality that provides both primary and comprehensive preventive and therapeutic oral health care for infants and children through adolescence, including those with special health care needs. The treatment approach is based through understanding and clinical application of the emotional and physical development of the child.

In this department A happy zone consisting of dedicated play area, small chairs, latest multi-media based entertainment work, play and learn apparatus is created specially for pediatric patient. One to one interaction with parents, child and pediatric dentist working is followed for children who are too young. Mentally or physically special, clinical procedures are accomplished under sedation or general anesthesia. Department also prides itself in processing all the latest equipment's and materials required for the treatment and management of children and for training of the undergraduate and postgraduate students.

Department of Periodontology

Dr. C.S. Baiju : MDS, Prof. & HOD, is a periodontist of repute and has a vast experience in various surgical procedures. Dr. C.S. Baiju is an examiner for both undergraduates and post graduates in periodontics of different universities of India. He is a scientific reviewer for journal of Indian Society of Periodontology, and has various publications on his credit.

The department deals with the diagnosis, treatment and prevention of various diseases of gums and supporting bones. The department is well planned and has separate UG and PG sections, and is equipped with state-of-the-art equipments and materials such as bone graft membranes, dental implants laser surgical unit for quality treatment.

During the UG programme, the students are trained with basic skills to render non-surgical and preventive periodontal procedures. During PG training program, the students are given opportunity to learn and master non-surgical and surgical procedures. Post graduate students are also being trained on different Dental Implant systems. Various clinical research studies are going on as a part of PG curriculum under the supervision of expert faculty members.

Department of Oral Pathology

Dr Shweta Rehani : MDS, Prof. & HOD, had completed her graduation and post-graduation from MCODS Mangalore and Manipal respectively. She is working as an active coordinator, supervisor, examiner in Undergraduate and post-graduate dental curriculum. She has streamlined various postgraduate and undergraduate activities. Under her guidance, numerous research activities have been carried out and published in international journals and have won prizes in national conferences.

The Oral Pathology department is committed to teaching both undergraduates and postgraduates. During I BDS practical, students are taught identification and carving of teeth, age estimation of casts and oral histology slides. During III BDS practical, students are trained for microscopic as well as for clinical identification.

The department is providing services to the patients through its histopathology, cytology, hematologic and immunohistochemistry laboratory. The department has latest technology research microscope which is having numerous additional attachment with inbuilt camera and imaging software which helps in diagnostic reporting service and research projects.

Department of Oral Medicine & Radiology

Dr. Ramesh Gupta : MDS, Prof. & HOD, MBA (Health Care)

He is an Oral Health Physician and Radiologist, with vast experience, He did his graduation in 2002 followed by post graduation in Oral Medicine and Radiology. He is a clinician as well as academician. His area of interest is Oral Maxillofacial Radiology that includes advanced diagnostic imaging (CBCT). He is a reviewer in the editorial board of various journals and has authored many publications and books.

Oral Diagnosis & Medicine is that branch of Dental Science which deals with the study, diagnosis and medical management of oral and oro-facial diseases, emphasizing the concept of systematic disease in role of oral sepsis and oral manifestations of systematic diseases with an objective of maintaining proper oral health for general health.

Oral Medicine is the art of diagnosing the diseases, developmental dental abnormalities/anomalies & management of medically compromised patients. The department is equipped with latest state of art technology like Digital OPG, digital RVG, digital cephalogram, digital printer, mobile and fixed DC X-ray units. Students are trained in taking as well as interpreting both intra-oral and extra oral radiographs.

SHANTI DEVI MEMORIAL HOSPITAL

A 120 Bedded Multispeciality Hospital

Dr. Garima Gupta
Managing Director

Your health is our concern

Shanti Devi Memorial Hospital, a 120 bedded multispecialty hospital, is located in the college campus. It has got state-of-the-art infrastructure with least medical equipment and all the modern facilities. The hospital has a Medical, Surgical, Gynaecology, Orthopedics, Eye, ENT, Pediatrics and Radiology department along with a well-equipped Physiotherapy department. These facilities are under the care of highly qualified full time specialists. There are also three well-equipped major operation theatres. We have a fully equipped Intensive Care Unit with 24x7 emergency and ambulance services. The medical facilities provided by the hospital are a boon to the residents of Greater Faridabad and 85 villages around our hospital. All wards and Intensive Care Unit have central oxygen supply facilities. There are well maintained general wards, semi private and private wards to cater the needs of all the patient including pregnant women & Pediatric care. MoU has been signed between the hospital and the Rashtriya Swasthya Bima yojana under which the hospital treats patients below poverty line. The hospital is empanelled with most of the TPA's for providing cashless treatment. Frequent health and disease screening camps are organized in surrounding villages. Needy patients are provided with free treatment and free transportation is provided to all the patients from the camp area to the hospital. More than 1000 free cataract surgeries have been conducted in the last one year.

Every year blood donation camps are organised in association with Rotary club for the need of society in Shanti Devi Hospital.

Facility

LIBRARY

The structural area of the library building is divided into different sections like Reference Section, Journals, Periodicals, Digital library, Audio-visual Section, general reading room, newspaper and photocopy. College Library has a rich collection of more than 5500 books, 300 national, international journals and E-journals this shows our commitment for the welfare of students who deserves the best in their academic life. A digital library exists with large number of E-books operating with a large number of desktops, world class servers and a Wi-Fi campus to ensure mobile connection at all the locations. Information are updated on a regular basis that incorporates latest developments in the medical, dental and healthcare arena thereby keeping its users abreast with the latest advancements across the globe. It also helps in creation of bibliographies for further study and research. The information on this portal is systematically classified subject-wise facilitating easy referral which makes our information resource access facility a unique system.

Girls and Boys Hostel

Separate affordable and comfortable air-conditioned and non air-conditioned accommodation is available for both boys and girls. The hostels are located inside the campus guarded strictly by qualified security guards rounds the-clock, ensuring the safety and maintenance of discipline among the students. The well furnished rooms are provided with all the required comforts and amenities including hot water, 24 hour power backup, laundry, Wi-Fi connectivity and recreational facilities like television, table tennis, badminton, chess, carom and fully equipped gymnasium in both the hostels. Mess facility is an integral part of the hostel which provides homely and comfortable stay with the sense of camaraderie and fraternity among the students. The dining halls are hygienic and spacious with adequate seating capacity. The healthy and hygienic food served is a combination of different delicious cuisines and different varieties is fine tuned to suit Indian taste buds. Each hostel is managed by separate male and female experienced wardens.

Dental Hospital and Research Centre

The dental hospital has excellent daily inflow of 550-600 patients. In general, it includes diagnosis, treatment and maintenance of health of teeth and the structures surrounding them. The scope of dentistry encompasses not only the regular dental care but also various treatment modalities like extraction of teeth, preparing artificial teeth and removing decay, treatment of jaw fractures, oral cancer, and Orthodontic treatment. Dentistry in Sudha Rustagi Dental College aims at giving the patient a healthy dentition, which is aesthetically pleasing and functionally acceptable for life of the patient.

RESEARCH

The College undertakes leading research and aspires to have a significant impact on improving populations oral health, thus reducing inequalities and improving on the delivery and quality of dental services and clinical care.

RESEARCH PRIORITIES

- ☛ Improving our understanding of the development and progression of oral and cranio-facial conditions.
- ☛ Creating innovative and effective treatments, service designs and public health interventions.
- ☛ The costs and effects of interventions to prevent or manage oro-facial conditions.
- ☛ Identifying the means of implementing cost-effective interventions into dental services.

SOCIAL RESPONSIBILITY

The College is engaged in improving the oral and craniofacial health and well being of people locally. There are two main goals :

- ☛ Increasing our commitment to local communities through health and education.
- ☛ Improving the dissemination and impact of our world-leading research nationally and globally.

Free Dental Camps :

The institution is providing its best clinical training to UG and PG for quality dental and medical care of the community at large. The institute contributes to philanthropic services as well. Two fully equipped air-conditioned dental mobile ambulances are used to organize free dental camps in the surrounding localities where patients are offered free consultation and treatment. Camps are held in rural and slum areas thrice in a week. School dental health camps are also conducted to educate and motivate the school children and the teachers regarding dental hygiene, oral health care and the emergency management of the dental trauma. Camps for the industrial workers and old age home educational camps are also held. Nearly 1000 dental camps have been held and till date approximately 1.36 lacs patients have been screened and treated for dental problems.

Students play an active role in these camps under the supervision of their teachers. Camps serve the twin objective of practical exposure to the students and service to humanity.

Extra-Curricular Activities

The college offers ample scope for all-round development of student's personality. It offers facilities for indoor games as well as outdoor sports, inter-collegiate competition and provides the forum for cultural and creative expressions. There is an excellent playground in the campus with courts for Basket Ball and Volley Ball. Modern facilities for physical conditioning are available at the indoor multipurpose gymnasium. Both intramural and extramural activities are planned to ensure regular participation of students in games and sports activities. Certain extracurricular activities are held annually along with certain functions which mark special occasions in a given year and these include :

Sports & Cultural Week

Our cultural programme aims to give equal chance to all the students to extend themselves and glow in their area of expertise. An annual week long event and a highlight of the annual calendar for our college. All the students, faculty and staff participate in the cultural program as well as in sports like Cricket, Volley-Ball, Throw Ball, Kho-Kho etc. Students and staff enjoy with treat enthusiasm in performing such activities which promotes greater chance of knowing each other. All winners are awarded with trophies and certificates.
