

## Guest Lecture Organized by the Department of Pediatric and Preventive Dentistry on 23rd April 2025

Department of Pediatric and Preventive Dentistry organized an insightful guest lecture by Dr. Sitanshu Arora (BDS, RACDS (PDS), M Clin Dent, Grad Cert Clin Dent, FPFA), a renowned dental professional based in Australia.

Dr. Arora delivered a lecture on the topic: “A Novel Remineralizing Dentifrice – SMILEZ SPEC”, introducing the audience to an innovative fluoride-free toothpaste developed under his own brand, Smilez Spec. This advanced dentifrice aims to provide effective remineralization while being safe and suitable for all age groups.

The session was both engaging and informative, offering valuable perspectives on emerging trends in preventive Pediatric Dentistry.
